

RM of Usborne No. 310

2023

Summer Newsletter

RM Of Usborne - Things continue to run as usual at the RM – both in the office & public works departments. Anna Wright is currently off on maternity leave. In her absence Lanette Morrow is Acting Administrator and we are happy to welcome Rachele Brochu as office staff. Morgan Kirschman and Terrell Friesen are welcome new additions to the outside road crew.

Road work – the municipality is mulching 11 miles on Twp Rd 320 this summer. This stretch will then be dust controlled also. The RM has found this process to be successful in building a strong road base that can handle heavy traffic.

We continue to complete work on 668 annually where pot holes and issues arise. We have contracted line painting on 668 for completion this year.

Gravel Hauls - BHP plans to haul large volumes of aggregate through our municipality in the coming years – royalty agreements are in place for these hauls. Truck routing for this haul is loaded on PG 761 and Bloomfield Road; PG 761 and Twp Rd 320 are being used for the empty return route. Routes are modified to accommodate for road maintenance as required.

Trucks hauling aggregate through the RM are now utilizing truck identifier placards. Trucks and trailers have a colored letter (signifying the company) and a unit number. These identifiers are important information in ensuring trucks are following policies regarding routing, speed and tarping. If you have a concern regarding a hauler, you need to provide this placard number.

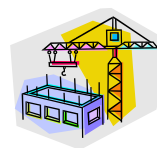

Reduced Speeds on ALL Hauls – due to the increased volume of truck traffic and road maintenance occurring daily; council requests that all vehicles over 10 tonne be operated at a maximum of 60 km/hr. The RM appreciates your co-operation in prioritizing safety on our road network.

Website – a reminder to check out our website! Visit us at www.rmusbome.ca for policies, forms, information and updates – we are always posting new items!

Pest Control – in conjunction with the SARM Beaver Control program, you MUST have a trapper license number to be eligible for beaver bounty. The RM cannot pay bounties without this number. Also note: land locations of removal are required!

We have also received an influx of calls regarding gopher problems. Please be advised that strychnine is discontinued for use in RMs, and the RM does not supply gopher products at this time.

Development & Building Permits –

If you are building, you must apply for both development and building permits and our building official will ensure that the building is built to code. NEW for 2022: ALL residences, or any building with sleeping quarters, must apply for a permit & are subject to inspections. Ag buildings (shops, barns, etc.) remain exempt; please see the website or contact the office for further details.

Noxious weeds – Marksmen Vegetation has been contracted again for 2023 weed control

Tax and Bill Payments – A reminder that we're registered with "Telpay", which allows ratepayers to pay taxes and invoices online with most major banks and Credit Unions. Your billing account number is your owner number (shown after your name, upper right corner) followed or led by zeros – usually 6 digits total. We also accept e-transfers to rm310@sasktel.net – **we do not offer credit card or interact.**

Assessment – SAMA reassessment was done in 2022 for the entire municipality. These numbers are reflected in the 2023 assessments. Please contact SAMA for any assessment related questions.

293 Exemptions – if you are eligible for a 293 exemption on your house due to your Ag land, you MUST fill out the form that was sent out previously and return it to the office. The form is also available online at www.rmusbome.ca

Maps: maps are available at the RM office, for \$10.00. Our map is also available on our website, or the iHunter app.

Bridges – some of our bridges and culverts have reached/are reaching their life expectancy! We are working diligently to replace these as required. The municipality will replace bridges with culverts wherever feasible.

Municipal Hail - Crop Exemption Forms had to be received before **April 30th. Remember!** If you want to withdraw from the hail plan, you must notify the office by **March 31st**. If you have a **Hail Claim**, the claim form can be submitted directly to SMHI, or the RM office if you wish. **Additional Hail Insurance** is also still available at the office.

RM operators – residents, ratepayers and road users are reminded to **be respectful** of the equipment operators while they clear/maintain the roads and streets. The RM is responsible for a vast area, including Guernsey and Lockwood, and the operators tend to all areas as quickly as they can and to the best of their ability.

Graders will now be equipped with ‘slow to 30’ signs for meeting and passing graders. Another reminder to please **SLOW DOWN** when meeting or passing RM operators & equipment on the roads – travelling by at excessive speeds is

a serious safety hazard to all parties and many reports have been received in this regard.

REACT - you can take your garbage (for a fee) to the transfer sites at Lanigan, Watrous or Drake *or* a farmer or group can rent or purchase a bin that will be emptied on a regular basis.

Recycle centers are set up and are free. Used oil & filters can be taken to the transfer sites at Watrous and Lanigan. Updated REACT information, including fees, can be found on REACT’s website.

Conservation & Development Authority Levies – the municipality currently has two C&D authorities operating within our boundaries. The Hunter Creek and Drake North have both received C&D designation and can assess levies to lands with befitting acres in the municipality. The municipality levies on their behalf, as legislated, then turns the funds over to the board to manage. Any concerns regarding these levies need to be discussed with the appropriate C&D Board.

Lanigan Creek Dellwood Brook Watershed

Association request to ratepayers – the following motion was passed by LCDBWA on March 31, 2023 “...that LCDWA will be cleaning out Lanigan Creek and that anyone that dumps rocks etc. into the Creek will be charged with removal of debris at the discretion on the LCDBWA Board.”

Grain Bag Recycling – a new program addressing grain bag recycling was launched in 2018. Please visit <http://cleanfarms.ca/programs/grain-bag-recycling-sk/> for more information, including collection sites & preparation steps prior to drop off.

Controlled Burns - if you are planning on burning at any time of the year, be sure to call in a **Controlled Burn at 1-866-404-4911**, otherwise you may be looking at a Fire

Department bill. You will be asked for the land description, reason for fire and to call back when finished. **Be advised that it is solely the ratepayer’s responsibility to confirm if a fire ban is on or not** – this can be done online at www.saskatchewan.ca , www.rmusbosborne.ca, or by contacting the office. **The RM accepts no liability or responsibility for ratepayers burning.**

Water Availability: If you have water available on your farm for local fire department use in case of an emergency, please notify your Councillor or the office to be put on a list

Office Hours – Hours are:
9:00am – 5:00pm Mon-Thurs
9:00am - 4:00pm Friday.
